BURIALS: TOKANUI HOSPITAL CEMETERY: 1913 - 1964

Tokanui Psychiatric Hospital is located about 10km south of Te Awamutu, Waipa County, Auckland Province.

The cemetery is on farmland near the hospital but administered by Ministry of Agriculture & Fisheries, not far from the junction of SH.3 and Tokanui Road. Permission to visit would be needed from the Farm Manager as there is no access except through farm roads. However the area is just paddock and not used except for grazing.

THERE ARE NO HEADSTONES. The cemetery is not a public one. It has not been formally closed but burials ceased as from 1 Sep 1964. The legal description of the area is: Pt Sec.3 Block X Puniu SD 2 acres 0 roods 20perches. It was gazetted in 1934 when the Waipa County Council appointed five trustees.

The Society of Genealogists is very grateful to the Tokanui Psychiatric Hospital, Private Bag, Te Awamutu for co-operation in making burial records available. In particular we thank the Medical Information Officer Miss D. M. (Mary) Day who was most helpful in sending background details, a copy of the cemetery plan, and providing facilities for the transcribing work.

Members of the Society's Te Kuiti Group compiled this list of burials in the summer of 1991 and the results were received from Raewyn Williams April 1991. The main source was a large pile of burial warrants. Details of sources:

Death register 1913 -1930. Information often more limited than burial warrants. Some entries have no plot number and burial may have occurred elsewhere. Names on the plan were not clear enough to confirm occupants of some plots.

Burial warrants 1927- 1955. Some of these appeared in the death register as well - occasionally with conflicting results!

Plan, no dates. Some early burials are annotated on the side of the plan as well as named on the plot. Each used plot is named though on the photocopy many of the names are indistinct. The more recent ones are better and this was useful, as there seemed to be no other records available for the period 1955-1964. Some 88 names are recorded on the plan covering these dates and are marked with an asterisk. *

There are three blocks in the cemetery:

A = Anglican Block
B = Non-Conformist Block
C = Catholic Block

Plots seem to have been allocated in chronological order within each block. In Block A, the first 13 numbers have been used twice. To clarify this, the earliest ones are described in the following list as 'Block A row 1 plot ..' On the plan Block A shows a total of 443 plots outlined of which 228 have been used; Block B shows 196 plots with 142 used; and Block C has 188 plots with 99 used. A few early Catholic burials are in B Block.

The cemetery is an unusual one in that few if any of the occupants are related to each other.

Abbreviations: d died Ang. Anglican
 bur buried Non-Conf. Non-Conformist
 * indicates dates between 1955-1964
